

# CTHULHU PUZZLE BOX BUILD INSTRUCTIONS

First build the outside maze box. Put together base.stl and 2 wall\_logo  
You don't need glue to assemble this.

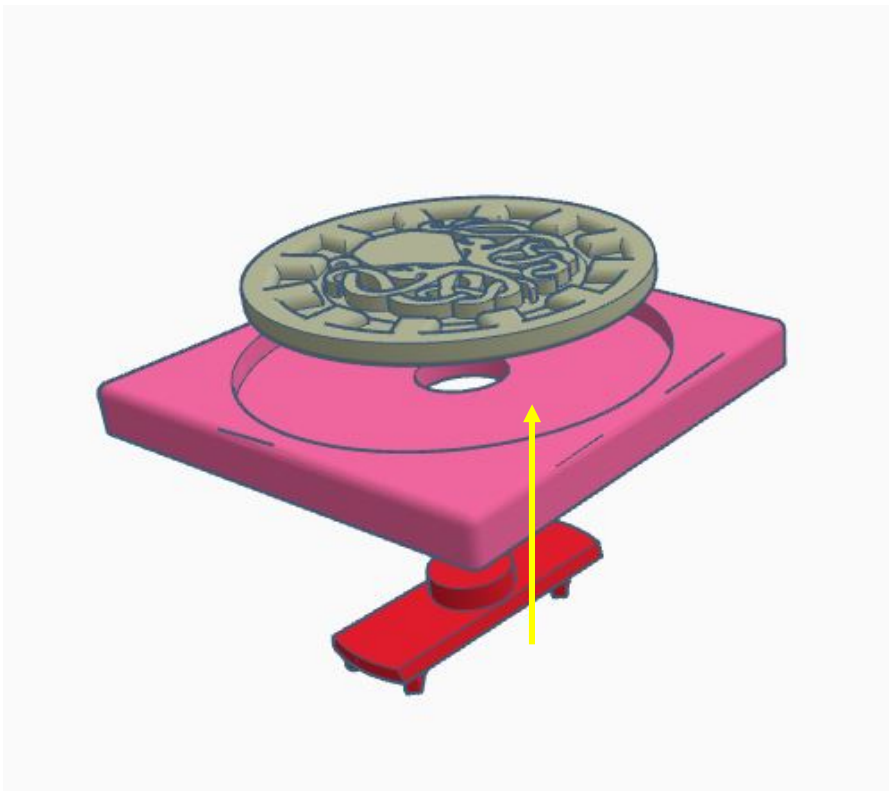

Assemble this  
three  
parts together

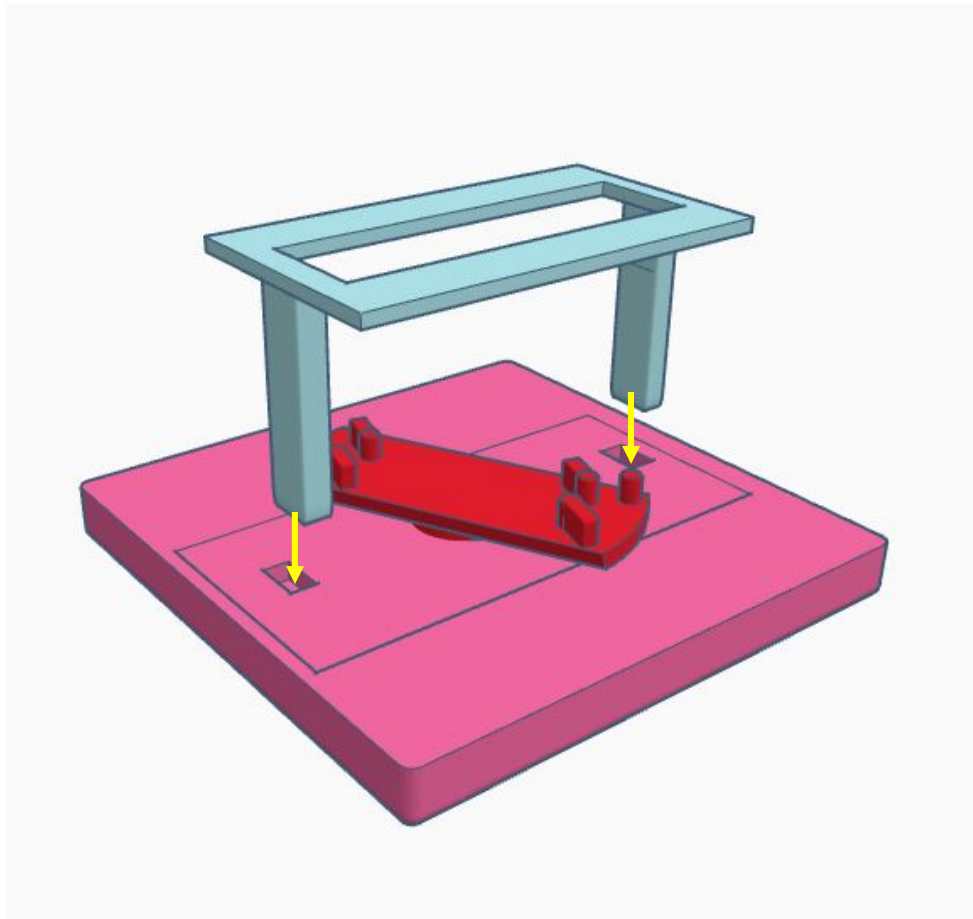

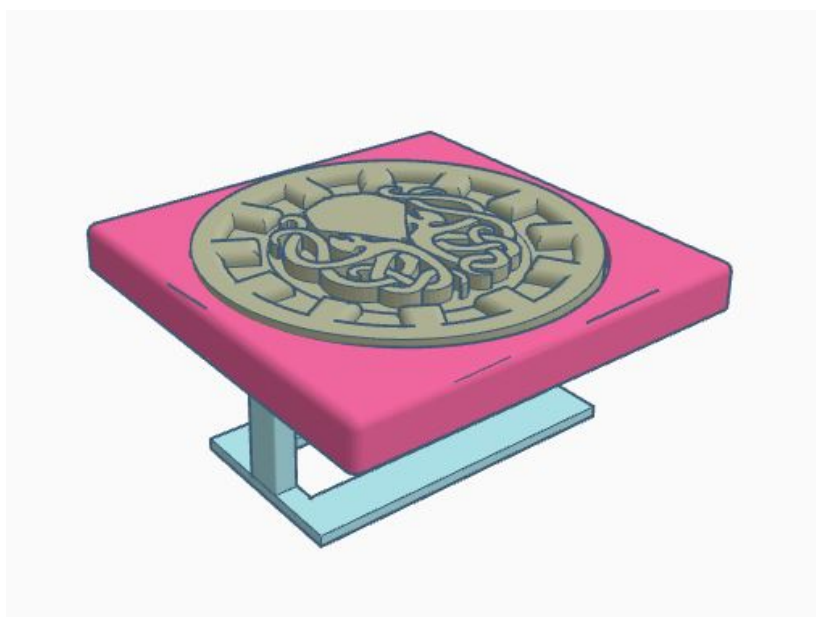

Assemble the lid. You have to glue lid\_lock with lid\_logo. Be careful don't glue also the lid.

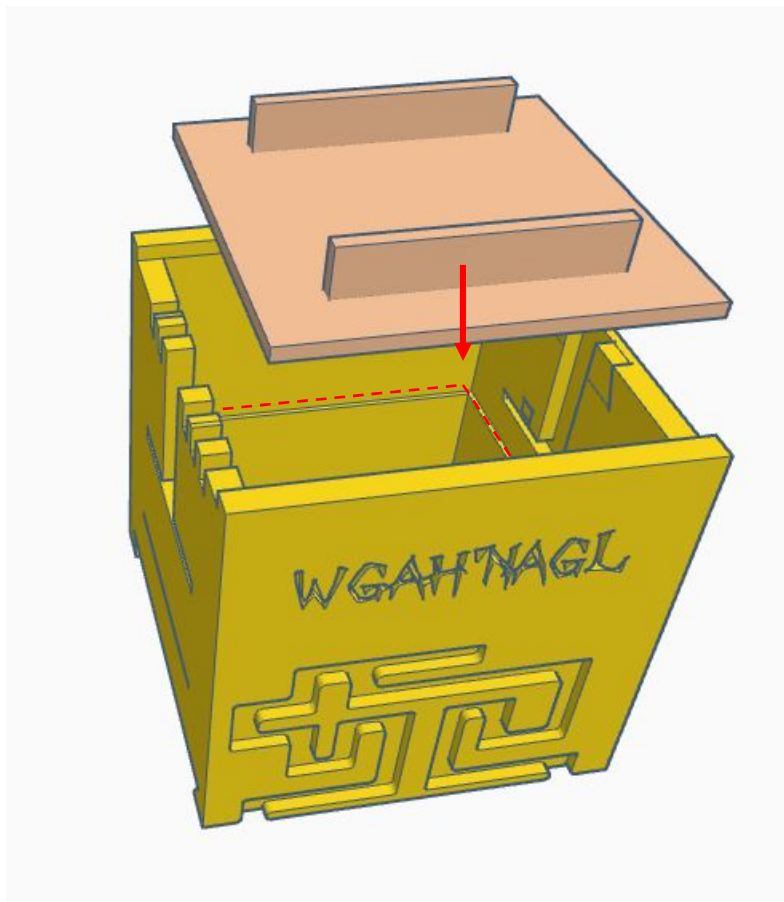

Glue lid\_guide with the lid

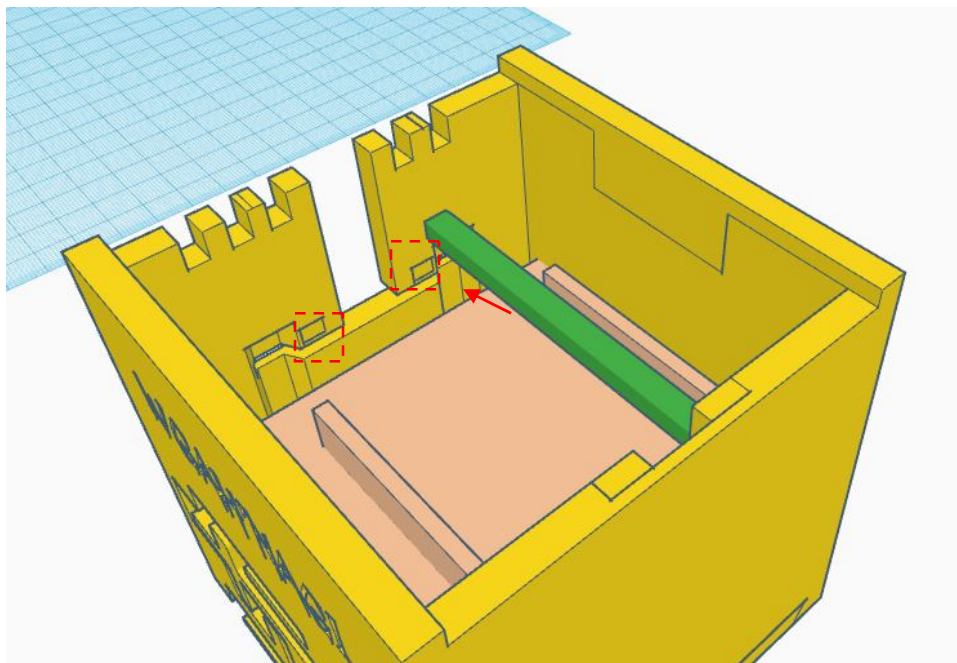

Lid assembled ☺

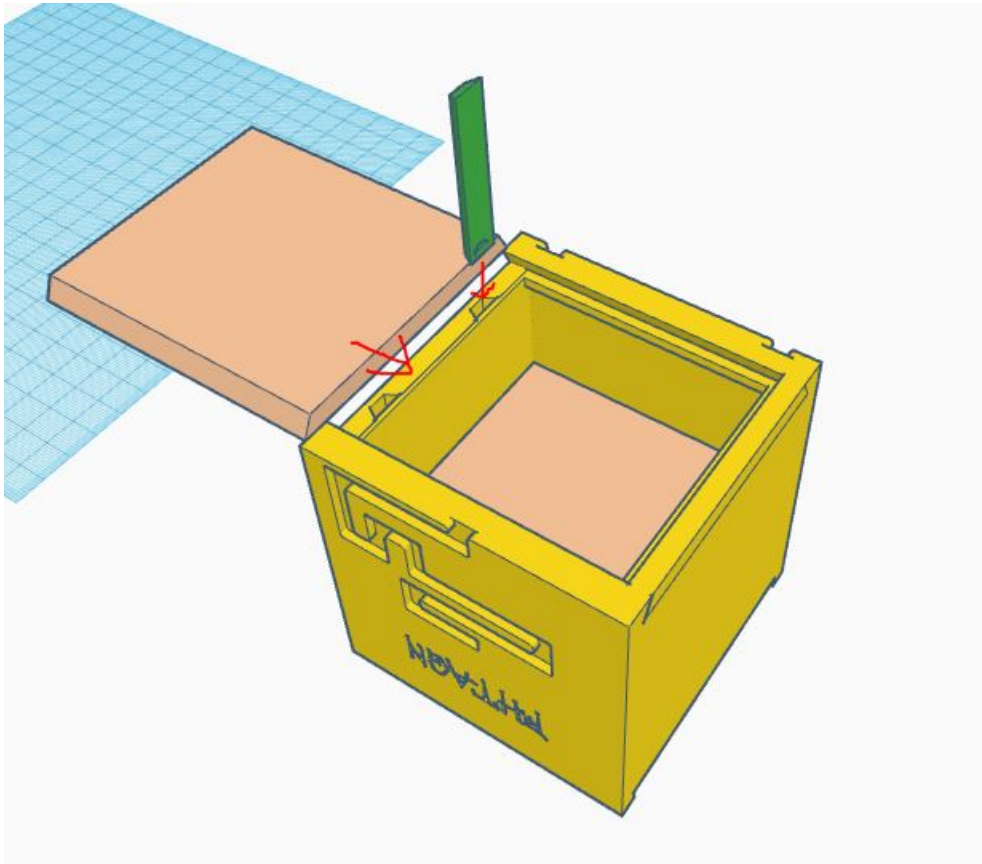

Next put inner\_box\_mid into inner\_box. You can glue this if you want.

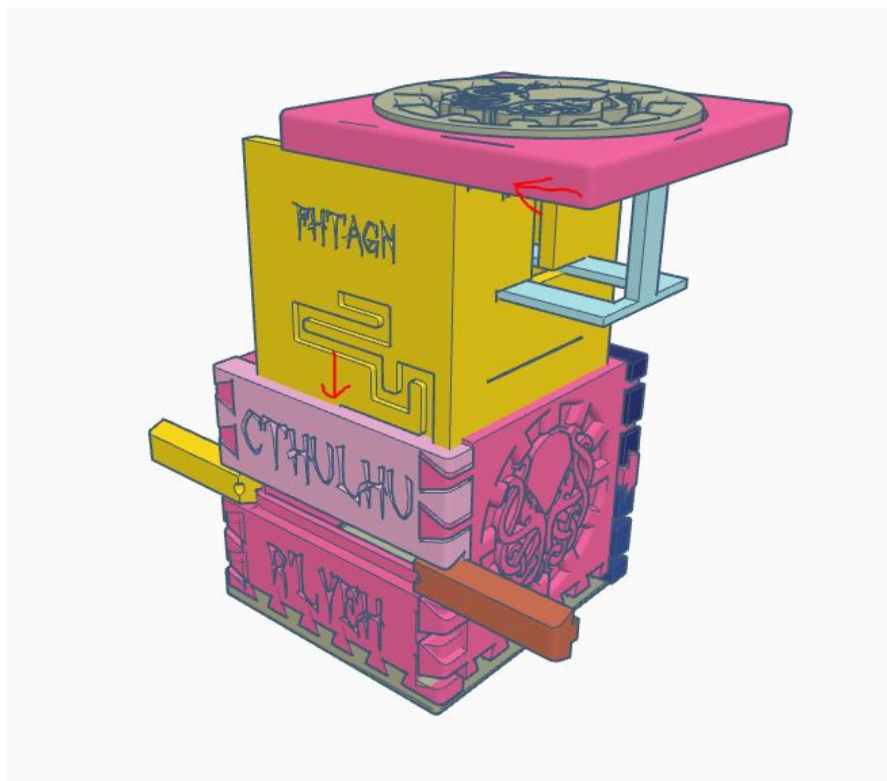

Assemble inner\_box\_guide on the mark and glue them.

Insert the inner\_box\_base\_locks and then close the lid base.

Finally, close the inner\_box with the lid, and insert the inner box into the outside box (you have to resolve the maze first ☺ )

Done ☺
